**Description:**

This database is an index of deaths recorded by the state of Alabama from 1908 to 1959. The registration of births and deaths on the county level began in 1881; however, state-level registration of deaths in Alabama did not begin until 01 January 1908. The index includes name of the deceased, county of death, date of death, and the state certificate number (volume and page). This database will prove useful to those seeking Alabama ancestors.

**Extended Description:**

For copies of Alabama death records after 1908, contact:

Center for Health Statistics

**Description:**

This database is an index of deaths recorded by the state of Alabama from 1908 to 1959. The registration of births and deaths on the county level began in 1881; however, state-level registration of deaths in Alabama did not begin until 01 January 1908. The index includes name of the deceased, county of death, date of death, and the state certificate number (volume and page). This database will prove useful to those seeking Alabama ancestors.

**Extended Description:**

For copies of Alabama death records after 1908, contact:

Center for Health Statistics  
State Dept. of Public Health  
P.O. Box 5625  
Montgomery, AL 36103-5625  
Tel: 202-242-5033  
<http://www.alapubhealth.org/vital/vitalrcd.htm>

**What Can I Find in the Georgia Deaths, 1919-1998 Database?**

This database is an index of more than 2.7 million deaths recorded by the state of Georgia from 1919 to 1998. The index includes the name of the deceased, the volume of the certificate number, the death date, the race of the deceased, the deceased's gender, the county of death, the death certificate number, the date the certificate was filed, and the deceased's age.

Use the information from this database to record details about your ancestor. In addition, information in this database may provide enough details for you to obtain a death certificate, which can provide additional information, like the full name of the parents, and the name of the informant who noted the death (who may be a relative). Once you locate a record in an index, send for a copy of the original, as it can provide additional information useful to your research. Ancestry.com's "Order Original Record" link is one helpful way to order the death record.

**What Can I Find in the Georgia Deaths, 1919-1998 Database?**

This database is an index of more than 2.7 million deaths recorded by the state of Georgia from 1919 to 1998. The index includes the name of the deceased, the volume of the certificate number, the death date, the race of the deceased, the deceased's gender, the county of death, the death certificate number, the date the certificate was filed, and the deceased's age.

Use the information from this database to record details about your ancestor. In addition, information in this database may provide enough details for you to obtain a death certificate, which can provide additional information, like the full name of the parents, and the name of the informant who noted the death (who may be a relative). Once you locate a record in an index, send for a copy of the original, as it can provide additional information useful to your research. Ancestry.com's "Order Original Record" link is one helpful way to order the death record.

**Source Information:**

Ancestry.com. *Georgia Deaths, 1919-98*. [database online] Provo, UT: Ancestry.com, 2001. Original data: State of Georgia. *Indexes of Vital Records for Georgia: Deaths, 1919-98*. Georgia: Georgia Health Department, Office of Vital Records, 1998.
